NATURAL COLOURS

 C-CAPTURE™
 MANE

COLOURS TRUE TO NATURE

Mane Kancor colours the world's leading food and beverage brands, keeping them appetising, vibrant and natural.

Mane Kancor's expertise in multiple methods of in-house extraction, isolation, purification and blending processes creates shades that are consistent in hue and stable in the food and beverage matrix.

Colourful Features

MAXIMUM COLOUR STABILITY

C-CAPTURE's stabilisation process is a mix of technologies including enhanced controlled processing/extraction techniques with an in-house natural anti-oxidant, OxiKan that ensures protection from oxidation. Customised formulations that consider pH, processing parameters, packaging and shelf life are key factors in creating natural colour systems.

CUSTOMER COLLABORATION

C-CAPTURE's team works closely with each customer to ensure that the natural colours developed, meet various substrate and manufacturing needs. This includes hue, colour stability, saturation, price and ease of use. It is important to have a clear and comprehensive understanding of the application, processing conditions, packaging and shelf life requirements to select the optimal pigments and colour system.

TECHNOLOGY SUPPORTED

C-CAPTURE offers a host of delivery systems that cater to the needs of customers. This includes spray-drying, encapsulation, plating and emulsion systems. C-CAPTURE uses advanced processing technology that creates high stability natural colours, without the addition of added ingredients.

RAW MATERIAL SUSTAINABILITY

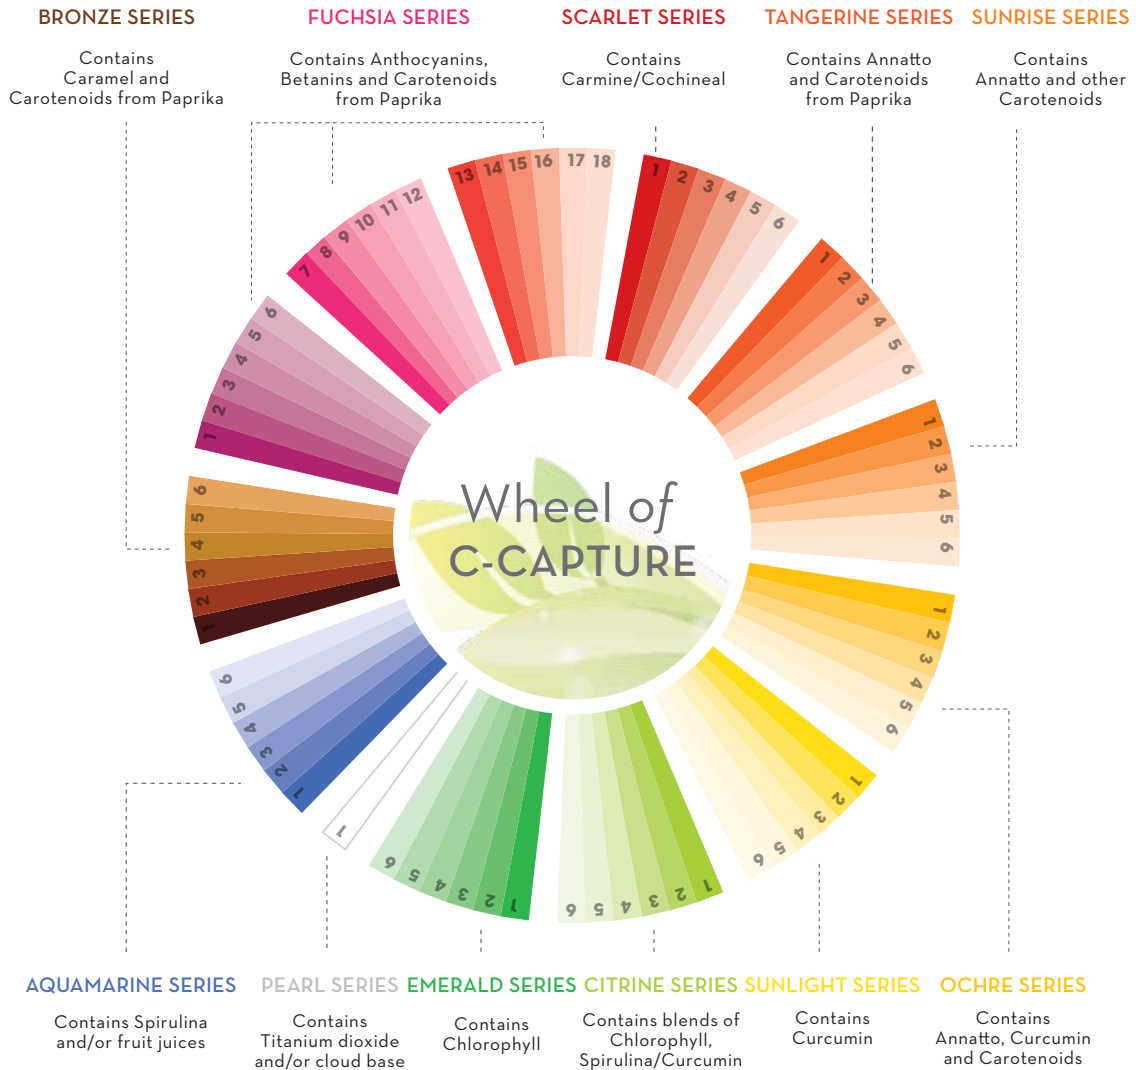

For key colour raw material, Kancor has a network of approved growers who are guided by agriculture experts. Long-term relationship with spice and vegetable growers ensures consistency in quality and reliability of supply.
