DELIVERY PLATFORMS

GranOR®

DELIVERING AN ASSORTMENT OF TASTES WITH JUST THE RIGHT CRUNCH

Mane Kancor's proprietary delivery platform, GranOR, delivers essential oils, oleoresins and natural food colours in a free-flowing, granular format. It also adds a crunchy texture to the food matrix. The homogeneous granular shape of GranOR gives a free-flowing property to the product.

This product is designed for single and multiple active ingredient combinations. GranOR is effective in delivery and release of aroma, taste and colour in end applications. These agglomerates minimise dusting and provide convenience in storage and handling operations. GranOR's higher bulk density makes it convenient for various applications. It is also a good alternative to dry spice powders, spray-dried, micro-encapsulated and other dry delivery systems.

VALUE DRIVERS

- Superior flow - granular form
- Customisable solubility based on intended application
- Crunchy texture
- Higher bulk density
- Higher loading of actives
- Consistency/standardisation
- Ease of handling
- Convenient to use
- Longer shelf life as compared to raw spices
- Low microbial load compared

PRODUCT RANGE

GranOR BLACK PEPPER
GranOR CAPSICUM
