

PURE BEAUTY

POWERED BY NATURE, PERFECTED FOR YOU

MANE KANCOR

We proudly carry a legacy of more than fifty-years' as a leading producer of natural ingredient solutions, with our expertise extending well beyond food and beverage applications. Through extraction, distillation, and purification of the world's finest natural ingredients, we, at Mane Kancor, leverage cutting-edge technology to offer the best solutions for personal care applications.

Our offerings include a diverse range of active ingredients, ayurveda inspired extracts, spice extracts, essential oils and natural colours.

With decades of experience in natural products, we possess the know-how to identify the optimal raw materials, apply the suitable extraction methodologies, meticulously screen and characterise active constituents, and seamlessly scale up production from gram-level prototypes to commercial quantities. With a global presence in over 100 countries, we operate regional distribution centres worldwide and maintain several state-of-the-art factories in India.

At Mane Kancor, we believe true beauty starts with nature's brilliance!

PERSONAL CARE

Discover our personal care line – a fusion of nature and innovation. Crafted with 100% natural ingredients and powered by scientific knowledge, our elixirs redefine beauty and personal care.

Years of experience and expertise in handling phyto-chemicals have helped us curate a 100% natural personal care line that meets the eco-friendly needs of our customers. Our portfolio comprises a range of ingredients that are safe for you and safe for our planet!

As a dedicated partner to our customers, we provide comprehensive support throughout the entire product development journey—from selecting the right raw materials and creating highly potent extracts to providing techno-commercial support and developing application prototypes. Our team will closely work with you to support your formulation process, ensuring the right dosage and application requirements for maximum effectiveness. Additionally, we provide regulatory support, helping navigate the complexities of local and global compliance.

ACTIVE INGREDIENTS

Unlock the transformative power of nature with our premium active ingredients—sourced from the finest botanicals and carefully selected for its exceptional benefits. Backed by clinical studies, our active ingredients work to address specific skin and hair concerns.

An active ingredient in skincare, haircare or suncare products are those components that directly impact the appearance and health of skin or hair, by targeting specific concerns or conditions. With an increased need from consumers for improved natural actives, we are excited to display our innovative elixirs that are designed by combining natural potency with a gentle touch.

What truly sets our ingredients apart is their proven performance. Backed by clinical studies, we ensure that every active ingredient in our portfolio has undergone thorough testing, confirming its safety, efficacy, and real-world effects. Each ingredient undergoes extensive testing—stability studies, in vitro tests, MIC (Minimum Inhibitory Concentrations) studies, in vivo tests/clinical studies etc—to ensure they meet the highest standards of safety and effectiveness.

Discover the synergistic effect of our actives that are designed to nourish, protect, and rejuvenate!

PURAKAN™

Purakan™ is a revolutionary anti-dandruff ingredient, combining the best of nature for exceptional scalp care. This unique, patented formulation is a blend of 3 botanical extracts each chosen for their specific benefits. What makes Purakan™ truly unique is that pomegranate peel is upcycled, while mint supports 6,000 farmer families through a strong sustainability program that fosters backward integration.

Key Ingredients:

- *Punica granatum pericarp extract*
- *Mentha arvensis oil*
- *Carum copticum fruit extract*

AYURVEDA INSPIRED EXTRACTS

Ayurveda extracts offer a pure and unadulterated dose of nature's goodness, allowing individuals to experience the authentic essence and efficacy of ancient remedies. By incorporating our Ayurveda extracts into your routine, one can tap into the timeless wisdom of Ayurveda and unlock the full potential of these natural wonders.

These are enriched extracts crafted through modern methods which are more efficient and delivers enhanced ingredient potency, as compared to traditional methods.

AYURVEDA CONCEPT INGREDIENTS

The Ayurveda concept line offers a range of curated blends with handpicked ingredients inspired from Ayurveda. Each product is meticulously crafted to address specific concerns providing a holistic care that nourishes from within. These concepts are backed by safety assessments and performance studies, and developed to suit modern-day versatile application formats.

ESSENTIAL OILS

Mane Kancor brings to you a captivating range of essential oils, sustainably extracted from India's diverse and abundant flora, encompassing seeds, flowers, fruits, stems, bark, roots, and leaves. From enhancing one's spirit to wellness benefits, these oils find applications in perfumes, cosmetics, and much more.

FLORAL EXTRACTS

Mane Kancor delivers a range of top-of-the-line floral extracts from the freshly harvested blooms of our sustainability programme areas, ensuring traceability and exceptional quality, complemented by sophisticated processing technology. Our expertise lies in the precision of our control during the processing conditions that aid us in preserving even the most delicate fragrances.

MINT & MENTHOL

Mane Kancor has been a game changer in the mint industry for the past two decades, pioneering the concept of closed chambers for menthol manufacturing; a paradigm-shift in the manufacturing of menthol crystals. The company has deployed resources to build a strong supply chain with production centres located in the heart of the mint belt.

Embracing sustainability, Mane Kancor's Farm Sustainability Assessment (FSA) certification programme promotes good agricultural practices.

THE FINEST OF SAFFRON EXTRACTS

Saffron is a unique spice derived from *Crocus sativus* flower, native to the Eastern Mediterranean and India. This elixir is known to have strong antioxidant and anti-inflammatory properties, and helps to rejuvenate skin complexion. Mane Kancor's Saffron Extract is obtained by the solvent extraction of the carefully selected stigma of the saffron flower.

OLEORESINS

Mane Kancor's expertise in sourcing and extraction is reflected in the quality of the Oleoresins it manufactures.

Our Oleoresins provide consistency and reproduce the character of the respective raw materials in their entirety, keeping them true to their origin.

At Mane Kancor, we have extensive backward integration programmes for various raw materials used for manufacturing oleoresins, ensuring sustainability and traceability.
